Johan Wolfgang Von Goethe

Who We Are

We are a well established, expanding organisation that provides social care to adults with learning difficulties and challenging behaviour

We have successfully developed person centred services that are able to respond rapidly and flexibly to individual need.

We specialise in supporting and sustaining service users whose behaviour may have resulted in a series of previous placement breakdowns.

Central to our approach is the belief that people value opportunities to live fulfilled lives by exercising personal choices and developing a network of social relationships.

If a man does not keep pace with his companions, perhaps it is because he hears a different drummer. Let him step to the music which he hears, however measured or far away.

Henry David Thoreau

What we do

We offer quality housing and specialist support for people with learning difficulty, physical disability, challenging behaviours, mental health problems and autism spectrum disorder.

These services currently include:-

- Residential Care
- Supported Housing
- Bespoke Services
- Outreach
- Respite

We embrace the independent living philosophy that all people, regardless of disability, have the right and responsibility to make informed choices, to live as independently and as safely as possible within the community and participate as full and equal citizens.

To be what we are, and to become what we are capable of being, is the only end in life.

Robert L Stevenson

Supported Housing

Our supported housing combines the advantages of independence with the reassurance of twenty four hour on site support.

Our supported Housing projects are located in North and North West London and offer a mixture of spacious studio, one, two and three bedroomed flats.

Service users placed within our services experience greater choice, support from a smaller staff team which enables greater consistency and continuity of support and also the provision of a physical environment that a service user can truly call their own.

Housing

Our housing stock is independently supplied by Fabian Housing, a not for profit organisation. Fabian Housing provides the housing management and tenancy sustainment support to the service users which includes establishing tenancy agreements, supporting service users in making their housing benefit claims, making arrangements for carrying out repairs in their flats etc

The smallest minority on Earth is the Individual. Those who deny Individual rights cannot claim to be defenders of minorities.

Ayn Rand

Residential Care

We provide specialist residential care for adults with learning disabilities and challenging behaviour in family sized houses.

Our services are registered with the Commission for Social Care Inspection, and have achieved 'Good' ratings

Our Service Users are encouraged to explore beyond their immediate boundaries, and our activities including accompanied holidays, college trips to cinemas and sports centres, all contribute to the development of user's life experiences and informed choices

Our homes are situated in residential areas close to local amenities and transport links.

Each home offers a comfortable environment with highly skilled staff that encourages independence and offers opportunities to develop skills and abilities.

Outreach Services

Our outreach support is offered on an individual basis and is undertaken by a small team of key workers who have been chosen because of their ability to meet the individual's needs. They build strong relationships with the individual, supporting them to manage their own personal care needs, financial arrangements and everyday routines and activities.

Respite

We provide respite care designed to give carers and the individual a break. Bookings can be made in advance to meet planned commitments or at short notice to meet emergency situations.

Bespoke Services

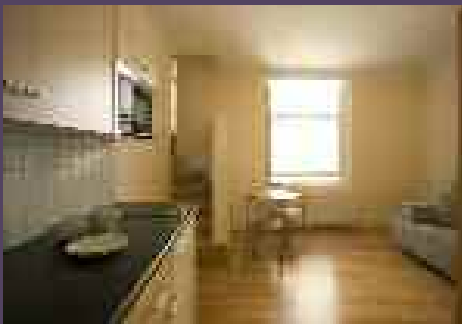

We specialise in designing services to the specific needs of an individual and can offer tailor made solutions at short notice. We provide a bespoke service that offers a comprehensive care package to suit the requirements of the service user.

The true civilisation is where every man gives to every other every right that he claims for himself.

Robert G Ingersoll

Quality

We operate transparent services which have clearly defined expectations which are regularly monitored and we continually seek new ways to improve our services through the feedback we receive.

Our residential Care Services have achieved a good rating and we have also attained our Investors in People Award. We are now working towards accreditation with the National Autistic society and we will be commencing ISO 2000 accreditation next year.

Staff

We recognise staff are this organisation's most valuable asset and, to this end, we provide a structured career development pathway for all our staff including comprehensive induction, individual annual training plan and regular supervision and appraisal.

We also provide specialised challenging behaviour training which focuses on low arousal techniques as a means of de-escalating behaviour.
